ALGAECAIN

NEWSLETTER N°7

SEPTEMBER 2019

The future of microalgae

UP TO NOW

The operation of the demonstration plant continues and is progressing well. The results are being analysed.

LIFE ALGAECAN participated in the International Congress on Algae IWAAlgae 2019 which was held on the 1st and 2nd of July in Valladolid. The progress of the Project was presented and members of the team had the opportunity to do networking with experts in algae at national and international level.

The Project was presented and discussed also at the final event of ALL GAS project by AlgEn in Chiclana, Spain, following the IWAAlgae conference in Valladolid.

LIFE ALGAECAN was present at the Centr@tec Circular Economy Seminar on 18 July in Salamanca.

The Project was presented at the workshop "Shaping the EUROPE of Tomorrow" in Brussels on 18 September. The aim of the workshop was to bring partners together to share projects, approaches, best practices and ideas.

The video demonstrating the operation of the LIFE ALGAECAN pilot plant has been published.

NEXT...

In the coming months we will continue working on the demonstration plant in HUERCASA (Segovia), adjusting parameters to achieve the best results.

The LIFE ALGAECAN Project will continue with its dissemination and networking actions. In early December, the Project will be presented by AlgEn at the AlgaEurope Conference which will be held in Paris, France.

We do not want to stop meeting more followers! Whether you represent a facility which performs: Treatment and processing of animal and/or vegetable materials in food and/or drink production, Fertilisers production or Animal feeding production, LIFE ALGAECAN invites you to participate as an observer in the different stages of the project. To do so, simply complete the questionnaire on our website :
